Pierson Advisory Group to Assist M&J Engineering, P.C. Board of Directors

4/4/16

George J. Pierson

The **Pierson Advisory Group**, led by its President, **George J. Pierson**, has been engaged by M&J Engineering, P.C. (M&J) to work with its Board of Directors as the firm continues its growth trajectory.

Headquartered in Long Island, NY and with additional offices in New Jersey, Connecticut, Pennsylvania, Virginia, and Washington, D.C., the nearly 100-person firm specializes in transportation engineering with emphasis on construction management, resident engineering and inspection, and intelligent transportation systems, as well as environmental

engineering and water resources, and seismic engineering and blast and progressive collapse of

military facilities. With a current focus on the northeast US, M&J is a certified SBA 8(a)/DBE/MBE/SBE firm with civil, structural, electrical, mechanical, environmental, and transportation engineers as well as landscape architects. It was founded in 2004 and services both private and public sector clients.

Said Maqsood Malik, the firm's founder, President, and CEO, "The Pierson Advisory Group, through George, brings exceptional experience to the engineering and construction industry. As an experienced engineer, attorney, and industry executive with expertise in both design and construction, he will advise M&J's Board of Directors on strategic solutions as we continue our rapid growth. I am honored to have George as an advisor to the firm and look forward to discussing innovative methods with him to assist our clients in successfully achieving their goals."

Added Mr. Pierson: "M&J, with Maqsood at the helm, is poised to achieve its next level of growth and The Pierson Advisory Group looks forward to working with him and his Board members on a variety of topics, always keeping at the center of our focus the firm's clients and the communities they serve."

Recent projects for which M&J provided services include resident engineering and inspection for the Alexander Hamilton Bridge and High Bridge Reconstruction for the New York State Department of Transportation (Project Valued at \$420 million) and construction management and resident engineering and inspection services as the prime consultant for MTA Bridges & Tunnels' Queens Midtown Tunnel (Project Valued at \$236 million).
